

ABOUT ME

After 20 years, I still love being a photographer! I was born and raised in the Black Forest of Germany, but it was the landscapes of Ireland that first inspired my career choice. I specialize in automotive/CGI, architecture, landscape, and lifestyle/outdoor photography. I am currently based in both Spain and Germany.

In 2009 I founded [Third Floor Company](#)--a 3D/CGI production company--based in Germany. After many years of location shootings and studio productions as a photographer, I am able to bring a realistic feeling into the 3D virtual world. Additionally, having a thorough understanding of the CGI process influences and enhances my photography work.

I enjoy the diversity of my work--the challenges and rewards of a career that is constantly evolving. Photography (and my bicycle) takes me to many parts of the world; and I am always learning from, and humbled by this experience. As I continue seeking new opportunities to collaborate with people of different cultures and backgrounds, one thing remains constant: I stay curious.
